Wealthy and Wise®

### Maximum Cash Flow Calculations

---

One important feature of Wealthy and Wise allows you to determine how much additional cash flow can be obtained from liquid assets by reducing long-range net worth to, for example, the net worth of the current plan where the IRA is kept as is.

This is obtained by using the “Additional Spendable Cash” selection from the drop-down menu on the Desired Cash Flow tab -- and then selecting this calculator from the interior menu:

Note: in some cases, there may not be enough liquid assets to reduce long-range net worth to, for example, the net worth of the current plan. Accept what you can reasonably calculate.
