

“As with all of the InsMark software, their Premium Financing System has proven to be an indispensable addition to my ability to show my clients the advantages in using a “Financed Premium” concept to solve their financial needs. Because of this, I was able to close three large financed premium cases easier and faster than ever before. I no longer need to use the cumbersome and illegible spreadsheets provided to me from other sources. As everyone understands, Premium Finance is a complex and involved concept to undertake. With the InsMark Premium Financing System, I am now able to show my clients a professional rendering of Premium Finance that is concise and easy to understand. As always, InsMark has delivered again. I encourage all who use Premium Finance as a solution to their clients’ needs to purchase this system. The cost of the system is not an expense, but rather an investment in your business.”
